

The Central Institute of Mental Health (CIMH) stands for cutting-edge international research and groundbreaking treatment concepts in psychiatry, psychotherapy, child and adolescent psychiatry, psychosomatics and addiction medicine.

Within the framework of the project **IMAC-Mind** (“Improving Mental Health and Reducing Addiction in Childhood and Adolescence through Mindfulness: Mechanisms, Prevention and Treatment”, subproject 2), we are offering highly motivated candidates to complete a Bachelors- or Masters-thesis in the Institute of Cognitive and Clinical Neuroscience at the Central institute of Mental Health (ZI) in Mannheim.

The project IMAC-Mind is dedicated to investigating the effect of mindfulness on the development and maintenance of alcohol abuse disorders (AUDs) in adolescence. In subproject 2, we investigate neuro-behavioural risk and resilience profiles for AUDs in an adolescent sample with the aim to develop novel App-based screening and intervention tools.

Bachelor or Master Student (m/f/d)

Start date: October 2019

Required Skills:

Candidates from the disciplines Psychology, Neuroscience or any related areas are invited to apply. The thesis can be written in German or English.

Responsibilities:

- Become part of a multidisciplinary team working on psychobiological and clinical research questions
- Participation in grant writing and scientific publications
